

Oriental & Area Rug Cleaning

Step 1: Pre-Inspection and Pick Up

We will pick up your rug from your home or business. Upon pick up, your rug will be thoroughly inspected.

Step 2: Dry Soil Removal

We use a variety of techniques to "dust" rugs from the front and back.

Step 3: Pre-Condition

Depending on fiber content and soiling type, the rug will be pre-treated to emulsify the soils.

Step 4: Pre-Spot and Fringe Preparation

Any potentially difficult spots will be pre-treated with special solutions to increase chances of removal. The fringe is also pre-treated for maximum soil removal.

Step 5: Shampoo

Most rugs are cleaned with an Oriental Rug Shampoo that is especially designed to get maximum cleaning while protecting sensitive natural fibers.

Step 6: Rinse or Wash

Depending on the type of rug it will be rinsed with extraction equipment on both sides or washed in a wash pit designed especially for Oriental Rugs.

Step 7: Speed Dry

Once the soil is rinsed away, the rug is dried flat or hung to dry in a controlled environment.

Step 8: Finishing

When the rug is dry, it is combed and finished with soft groomers made for specialty rugs.

Step 9: Post Inspection and Delivery

Our cleaning specialist will give the rug a final inspection and release it for pick up or delivery. Your rug will be wrapped in brown craft paper to protect it from dust and environmental soils until it is picked up or delivered. Upon delivery we will lay the rug for you.

Carpet Repair & Re-stretching

After a period of years, depending on soiling, traffic and installation, carpet may need to be restretched. If you have "buckles" in your carpet, we recommend carpet restretching. We use a power stretcher to get your carpet as tight or tighter than when it was new. If you have holes, seams coming apart or any other damage to your carpet, an expert carpet repair can be done for you.

Drapery Cleaning

Drapery Fresh is a unique approach to drapery cleaning. With this system, we can clean your drapes in your home or office where they hang!

- No more bare windows for a week or more!
- No odor causing solvents!
- No pick up and delivery charges!

Hard Surface Cleaning

Marble • Granite • Travertine
Terrazzo • Countertops • Saittilio

CLEAN AS A WHISTLE, INC.

What Distinguishes One Cleaning Company From Another?

For the best results in selecting a professional cleaning firm, consider the following questions:

DO THEY HAVE GOOD REFERENCES?

Unfortunately the cleaning industry is filled with uneducated, uninformed and sometimes downright unscrupulous companies. Clean As A Whistle enjoys one of the best reputations around. The area's most seasoned floor covering experts, Interior Designers and Realtors refer our services exclusively. Clean As A Whistle is also endorsed by Houston's most prominent citizens. Our reputation insures that you can trust our company to provide you with the most outstanding service experience ever!

WHAT KIND OF EXPERIENCE DO THEY HAVE?

Clean As A Whistle has been caring for the finest floors and fabrics since 1984. We are experienced in all types of fibers and soiling conditions, no matter how unusual they may be. We are experienced in all methods of cleaning. Clean As A Whistle is known for being able to solve cleaning related problems that no one else can. This insures that whatever your situation is, we will be familiar with it.

ARE THEY WELL EDUCATED IN THEIR FIELD?

Clean As A Whistle is committed to the highest order of education and training. Our company is involved in a number of educational processes. Each staff member is thoroughly trained, that's minimum standard. In addition, our firm is certified by the IICRC. Never use a firm that isn't. We hold 2 Master Cleaning Technician designations (the highest available), and several other designations. We write articles for industry publications, attend (and teach) the highest quality seminars around the country. This insures that you will get the latest cleaning technology applied to your job.

WHICH SYSTEM DOES IT USE?

The equipment that a cleaning firm uses is incredibly important. Clean As A Whistle uses only the highest quality, most advanced, state-of-the-art equipment on the market today. The systems we use will get maximum soil removal and maximum spot removal without overwetting your floor or fabric and without leaving a sticky residue behind.

DO THEY UNDERSTAND CUSTOMER SERVICE?

Our mission is to provide you with the most outstanding service experience possible. We are committed to showing up on time, and communicating

with you throughout the service experience. Our staff will show up in a professionally lettered vehicle, in uniform, ready to serve you in the most courteous manner possible.

DO YOU GET WHAT YOU PAY FOR?

Never select a cleaning firm based on price alone. A low priced service could actually damage your floor or fabric costing you more in the long run. Clean As A Whistle charges more than other companies, but you get what you pay for. It's impossible for a company to provide the most outstanding service experience if they can't afford to invest in the best education and equipment.

DO THEY USE TOP QUALITY PRODUCTS?

Clean As A Whistle refuses to use discount products. Cheap products can damage your floors and fabrics. The products we use are safe for the outside environment as well as the indoor environment.

DO THEY GUARANTEE THEIR WORK?

Our guarantee to you is that if you are not completely satisfied with the service experience you receive from our company, we will rush back to your location at no charge and no obligation to make things right. If you are still unimpressed, we will offer a complete refund.

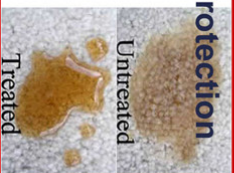

REFERRAL PROGRAM

For each new customer you refer to Clean as a Whistle, we will send you a 10% referral commission. A certificate for 10% will be mailed to you when the referred customer pays the invoice. The referral commission is paid on the first new job. Repeat business does not qualify for the commission. You may then either use the certificate toward services or cash. Remember, we guarantee our work, so don't hesitate to refer someone to us.

ALL SERVICES PERFORMED BY SHARPLY UNIFORMED CLEAN AS A WHISTLE TECHNICIANS

Carpet & Fabric Protection

Always have protector applied to your carpet or upholstery when it is cleaned. Textiles that are not protected are prone to pre-mature soiling, permanent stains, and ultimately a shorter life. Clean As A Whistle offers a quality carpet and upholstery protector.

Untreated

Treated

12 STEP Carpet Cleaning Process

Step 1 — Pre-Inspection
Every carpet is thoroughly inspected before cleaning.

Step 2 — Commercial Pre-Vacuum
Your carpet will be thoroughly vacuumed with a special Turbine Vacuum System.

Step 3 — Furniture Moving
Sofas, chairs and tables will be carefully moved.

Step 4 — Pre-Spray & Pre-Spot
Traffic areas and spots are pretreated for more effective removal.

Step 5 — Pre-Groom
Carpet is to be pre-groomed to further loosen traffic area soil.

Step 6 — Rinse & Extract
The loosened soil is then thoroughly extracted.

Step 7 — Neutralize
Every carpet that we clean is pH balanced.

Step 8 — Post-spot Treatment
Treatment of specialty spots and urine is included.

Step 9 — Dry Bonnet
A dry bonnet is used on carpets that are prone to wicking.

Step 10 — Speed Dry
High velocity air movers are used to speed dry carpet.

Step 11 — Post Grooming
The carpet pile is set in one direction for faster drying.

Step 12 — Post Inspection
A post walk through will be done to insure you are pleased.

Pet Odor Removal

Pet Odor Removal Using the "Water Claw" Technology. Ask about our GUARANTEED PET ODOR REMOVAL

UPHOLSTERY CLEANING

STEP 1 — Fabric Testing
Your fabric will be tested for fiber type and dye stability.

STEP 2 — Area Prep
We will prepare the area where the upholstery will be cleaned to protect your surrounding furnishings.

Step 3 — Pre-Vacuum
Dry soil will be removed before cleaning.

Step 4 — Pre-Treat
Depending on your fabric, it will be pre-treated to "suspend" bonded soil.

Step 5 — Pre-Spot
Any potentially difficult spots will be pre-treated with special solutions to increase chances of removal.

Step 6 — Pre-Groom
The fabric will then be gently groomed using soft upholstery brushes to loosen the soil.

Step 7 — Soil Extraction and Rinse
The soil is then extracted from the fabric with a gentle, controlled rinse.

Step 8 — Neutralize
The fabric is then pH balanced to maintain it's soft, fresh feel.

Step 9 — Post Spot
Any remaining spots will be treated with special stain removal products.

Step 10 — Post Groom
The upholstery will then be prepared for drying with a gentle combing of the fabric.

Step 11 — Speed Dry
High velocity air movers will be placed on the upholstery to speed dry the fabric.

Step 12 — Post Cleaning Inspection
Our technician will review the cleaning results with you to insure that your expectations have been met or exceeded.
